

Xfaang Sp. z o.o. is a software company with experienced leaders with FAANG

background. We specialize in full-stack development and cloud solutions. You will be working on high quality IT solutions with the world's leading experts for diversified clients.

This time we're looking for a Flutter Developer for a scalable project created from scratch for the sport-tech industry. You will be working on improving frontend systems and microservices in a fast-paced environment. This is a long-term, remote role.

Requirements:

- 2+ years of commercial experience, preferably in Flutter development
- Experience with CSS frameworks, preferably Tailwind is a plus
- Great knowledge of JavaScript and/or Dart
- Understanding of algorithms and data structures
- English at B2 level or higher
- Created application in store to present

Nice to have:

- Experience with cloud infrastructure
- Knowledge of apple store and google play requirements

We offer:

- Tech mentorship from ex-Google, ex-Facebook developers
- Soft skills development classes with a dedicated teacher
- Fully remote working environment (our office in Warsaw also available if that's your preference)
- Reimbursement for office desk at coworking space of your choice
- A lot of independence in driving projects, with trust and support from leadership
