

Xfaang Sp. z o.o. is a software company with experienced leaders with FAANG background. We specialize in full-stack development and cloud solutions. You will be working on high quality IT solutions with the world's leading experts for diversified clients.

This time we're looking for a Senior JavaScript Developer to join our team in a Project that aims to digitize the museum's resources "Otwarta Zachęta". We aspire to create a universal standard for organizing and sharing art through APIs. The results of our work will be actively shared with the open source community and we welcome the opportunity to cooperate with volunteers.

Requirements:

- full time work
- 4+ years of experience in JavaScript
- Skills in React, Next.js

Nice to have:

- Tailwind CSS
- Previous open source contributions

We offer:

- The project is fully Open Source
- Skilled client and professional work organization
- Tech mentorship from ex-Google, ex-Facebook developers
- Soft skills development classes with a dedicated teacher
- Fully remote working environment (our office in Warsaw also available if that's your preference)
- Reimbursement for office desk at coworking space of your choice
- A lot of independence in driving projects, with trust and support from leadership
